SUBJECT.

Complaint of Chavareken Krishna requesting
to be exempted from water-rate on his land in Chikar.
Lager village in the Chikar Taluk.

One Thavarasere Kivimappa,
Agent of Karasamma, mortgagee
of the Kayengutta Dyavarandra
village in the Lucibie Hobli of
the Hookota Taluk, addressed a
petition to this office on 25/4/87,
the purport of which is as follows:-

That although the "Patta gaddi" of
the said Dyavarandra village is
usually irrigated by the water running
thro' Rajraive of the ~~soo-da~~ ^{soo-da} ~~Chalaga~~
Chamani tank, yet the Deputy Commr
has ordered the levy of water cess on
the representation made by the Amildar
in the ~~Taluk~~ ^{Taluk} ~~Taluk~~ ^{Taluk} ~~Taluk~~ ^{Taluk} for Partition
to the effect that the said wet land
was irrigated by the water of the
aforesaid tank without precedent.

Whether the said land is Patta gaddi
or not may be ascertained, and if
it were proved in the affirmative,
orders may be passed as to who is
responsible for the loss of about 55
candies of paddy, sustained by the
Kayenguttadar & his ryots owing to
the stoppage of water for cultivation
purposes.

That the Amildar's statement

alltho the question was formerly decided,
yet the new Thanbogue Kristappa
has attached the produce of her lands,
it should be reported how the question
was formerly decided & how the Thanbogue
interferes in the matter in spite of
the alleged former decision. The
statement of the Thanbogue should
be submitted & he should be informed
that he would be held responsible
for damages on account of wrongful
attachment of the produce. The
particulars as to whether any water
cess was ever levied on the wet
lands of the said 2 villages, as also
the details of extent of those lands
should be intimated on personal
inspection & local enquiry."

6 "Thanbogue Kristappa is
absent. His father Rangappa, states
that the lands of the goodi Chik Arlayen
village were never irrigated by the
waters of ~~Araya~~ Arlayen Ammani tank
and consequently no water cess was
ever levied. That, besides this village
has no water cess, that also some
lands of the village had been —
cultivated with wet crop during the
year Vikrama, the levy of
water cess was ordered, but the villagers
having

having executed a *manayan* to the effect that the wet ~~land~~^{crop} was raised by means of rain water, the said order was countermanded, that the *Kayengatta Syavara* and *a* village has some *patte gosse* which is usually cultivated, that there is no record to show whether any dry land of this village was ever irrigated by the water of the said *Sooda Ariagere Anami* tank, and whether any water cess was levied on that account; that the *(Kanjappa)* does not know whether the land in question is *patte gosse* or dry land, and that his son (*Chamboque Krishna*) will furnish any further details required. As the wet crops have already been ~~reaped~~ reaped & as the tank is empty, it is impossible to find out whether the lands of the 2 villages in question were irrigated by the water of *Sooda Ariagere Anami* tank. The produce of the lands was not attached by me. It appears that the *Chamboque*, under orders from the *amildar*, directed the *Talwar* & *gajannas* to seal the produce & that the *Suamdas* have, nevertheless, taken away some portion of it."

The *amildar* report in 999 8: 9/3/84 to the *amildar*.

7 "On enquiry as directed it appears that there is no *inam* to charge water rate on account of *patte gosse* in question. The list of *patte gosse* prepared by

is now at Srirangapatna on circuit, and as the patta gadda of Dyavarasandra village is only a furlong from it, the Deputy Commr. may find it expedient to visit the land. The petitioner is prepared to point out the patta gaddas of —
 Balenahalli, Sasimakinahalli,
 Doddaralagere & Dyavarasandra —
 villages, all of which are situated below the Doddaralagere amini tank, as also the old water course constructed for the irrigation of the said wet lands, and to prove his statement by the evidence of Tahsildars, Talukdars, village headmen & ryots of the said villages & also the late Kodagidas of the said amini tank (since deceased to Govt.).

Since the Rayangutta Dyavarasandra village, like other villages, was originally granted at an upset patta amount for the whole dry & wet lands attached thereto, it cannot be considered that the Rayanguttadars has unjustly utilized the water of Doddaralagere amini tank. Besides, the heavy cost at which the said tank was formerly repaired, was apportioned to other villages also, as follows.

2/5 of the cost to the Doddaralagere village
 1/5 do Rayangutta Dyavarasandra village
 1/5 do Balenahalli
 1/5 do Sasimakinahalli

The petitioner has paid up his contribution in

contribution & his ryots are still paying
the tank band annually. While such
is the fact, it is unjust to demand
water cess against precedent. It
may be taken into consideration
that the Kayangutta amount of Rs.
175 is on account of wet & other lands
of the village. While the conveyance
of the lands in the occupancy of ryots
below the said ~~Sidda~~ Chik-chalagere amount
the Tank is recovered separately from
the ryots concerned, the conveyance
of the patta gadda in question is
virtually included in the gadda amount
of Dyavaramura village & the same
levied in a lump sum. As the petitioner
is not the sole Kayanguttadar but
only a mortgagee, he is not in possession
of the ~~Shanboque~~ of the village. The old
accounts such as Dymanish patti
&c which are to be found in the Dist
& Taluk Offices may be referred to
& justice done to the petitioner by
ordering the stoppage of the levy of
water cess on account of the Kayangutta
Dyavaramura & godi Chik-chalagere
villages. It cannot be supposed
that the Kayangutta Dyavaramura
village has no wet lands, for, the
Shanboque of the village, the late
Kodagidar, Talwar & other Brahmins
are still enjoying wet lands in
the village. Similar to

Kayangutta

Kayangutta village, the neighbouring
 godi villages of Seddunahalli &
 Channanahalli have their wet lands
 below the Lica tanks of Bettanahalli
 & Paikante villages respectively, as
 may be seen from the Pymaish
 accounts of Seddunahalli & Kirohanna.
 The said wet lands are irrigated by
 the waters of the above mentioned
 godi tanks, and the produce is
 taken every year by the godidars —
 concerned, and no water cess is levied
 from them. The terms of Samad
 of the aforesaid godi villages are
 similar to those of the Samad of
 the Kayangutta Syavasanra village.
 Moreover, the Samad of godi &
 Kayangutta villages do not usually
 show details of ^{sources of} irrigation ^{cess}, but
 such particulars are generally given
 in the Pymaish accounts of Lawil
 or Pota Pota papers in which the
 villages were originally granted by Govt.

Petition of Karasamma, godidar
 of Chikétrigere village, to the
 amildar — 8/11/86

10 "The imposition of water cess on
 account of the alleged utilization of
 water of Seddunahalli & Channanahalli
 for the lands of the godi Chikétrigere
 village, is unjust inasmuch as
 the lands cultivated with wet crops
 form a portion of the bed of the ruined
 tank of the said godi village, and

inasmuch as only punji crops
raised thereon by the help of rain water.
A similar question having been
raised in previous years, it was,
after enquiry, decided that no water
cess was to be levied."

11 The endorsement given on the
above petition was to say that, as
per orders of the Dy. Commr in the Takras
Thakla, the petitioner is liable to
pay water cess.

No 147 & 30/10/86

12 "The crimidar reports that the
petitioner has been directed to pay
water cess as per orders passed on
enquiry by the Deputy Commr. Hence
no other orders can be given from
this department."

Endorsement from the Deputy Commr
No 256 & 18/11/86.

13 "etc, during the last gamabandi,
it was brought to the notice of the
Deputy Commr that the water of dooda
chlagre amami tank was utilized
for cultivation of lands of the Kayaygulla
Dyanasandra village, and that no
Tannas fee allowing this privilege was
forthcoming, the levy of water cess was
ordered. The records submitted by the
crimidar have again been perused
and there are no grounds for cancelling
the said order. Besides, the petitioner
has not produced any records in
his favor. If the amount ordered to
be levied be not paid forthwith,
coercive measures will be adopted

by the Amildar."

14 "As the Sanchoque of Doria
Chlayere Amami tank is not on term
with the petitioner, he conceives all
the previous references & orders on the
subject, ~~and~~ and simply noted in
the tanker. He states that the Rayen-
guttadar has unauthorizedly utilized
the water of the said Amami tank.

The Amildar resigning this suggests
the levy of water cess. The Dy. Commr.
also, not taking into consideration
the just prayers of the petitioner, has
passed orders against him. Copies
of orders &c (referred to in paras 2 to 7)
are herewith submitted for further
consideration & orders."

15 "The documents produced by the
petitioner do not show any orders to
the effect that the water of the tank
may be utilized for the lands of
the Rayengutta village free of any
cess. If there is any planned or other
order of the higher authorities in favor
of the petitioner's contention, and if
such be produced due orders will
be passed."

16 In reiterating the contents of his
former verges, the petitioner states
that he is deposited account of
Kroshana (1805-1806)
clearly shows that the Patta gosse
of

of Dyavavandra is to receive its
 irrigation from Doddahelagere tank,
 that this tank which ^{had been} ~~was~~ formerly
 a Kodagi tank in the enjoyment
 of the original Kayenguttas,
 was, about 10 or 12 years ago, resumed
 to Lekar. The said tank being out
 of order, it was repaired at a cost
 of Rs. 800, of which a contribution
 of Rs. 200 has been paid in the shape
 of labor by the present Kayenguttas.
 The ryots of the Kayengutta village
 are still doing the annual repairs
 to the tank.

17 In reply, the petitioner was
 referred to the former endorsement.

Endorsement No 270 326/12/26

18 The order passed by the Dy. Com.
 in this Takrar Thakla, referred to
 already runs thus:-

Takrar Thakla No 7

"They have failed to show cause
 why they should not pay, so the water
 rate for last year must be collected
 at once".

19 Of the total extent of 5-18-2³/₄
 candies of the Kayengutta

pyramidical account of Keroshana
 (1805-1806)

 Dyavavandra village, excluding
 minor tracts of unculturable waste-
 land, an area of 1-17-4 candies represents
 wet extent. This land is stated
 to be "a wet-land forming part
 of

of the area under Chingore tank
and extending to Patte gadda."

20 The above records together with
the petition of Thavarekere Krishappa
were sent to the Dy. Commr, Bangalore
district, for report. That Officer in reply
states that, as the Kayengutta
has failed to produce any written
authority allowing him the right of
using the water of Goud tank for his
the cause of his Kayengutta village,
the supply of water cess has been ordered.

Letter No 177 of 10/6/87

The Finance Department is
without to for any references
among the forthcoming in hearing
the matter. It appears
that certain proceedings took
place in 1868/69 in the course of
the enquiry into the claims touching
the Kayan-footha Villages.

N. 287.30 July/87

2. In reply to his letter of 12th June, by the Dy. Commr was requested to report after inquiry, whether it was true that the Petitioners or the Razamgutta had, as alleged, paid contribution towards the repairs of the Belager tank, and if so, how much; and contribution was demanded if the tank belongs to Govt; and whether the other Petitioners irrigated their lands by the same tank & when, paying cap.

N. 287.30 Oct 87.

1. Belager. Razamgutta
& B. Binnahalli.

2. It was stated in reply that the Razamgutta & Binnahalli had no tank of their own, but their lands were irrigated by the said tank, and consequently were an estimate for Rs. 3.30 was prepared in 1872 for the repairs of that tank. The report of the village constituted Panchayat was, that as the Razamgutta & Binnahalli were not irrigated by the said tank, they could

could not be determined; but
the records do not show that the
Government paid any
contribution at all; that no
water rate had ever been
levied on the minor income,
the irrigated by the Bangalore
tank, and that this exception
could not be accounted
for. A file of reports, plans
was also submitted, consist-
ing of instructions and the
repairs of the tank, plan, estimates
Contractors Muskatika, bills,
jambhatis, notices, petitions
from the ryots intimating the com-
pletion of the work allotted to them,
and a hukam from the Dy. Commr.

To

The Chief Secretary to the Government
L.R. 29-87-3 of Mysore.

I am returning the enclosures received with your office memo No 141 of the 1st Instant. I have the honor to state that the original Raymangutta was the late Alankshi Krishnappa, when acting as Gumasta Shantogge of Chellegere. He utilized without the knowledge of Government water from that Tank for irrigating his Raymangutta land of Davasamudra. A part of this village was subsequently mortgaged to Parasamma, sister of the petitioner, who continued to use the water from the said Tank.

This fact was brought to my notice during the Jannabundi of the year 1885/86 in the Takaran Tappa. I enquired into the matter and as the petitioner failed to produce any written authority to prove his right to the use of the water, though sufficient time was given to him for doing so, I ordered that he must pay water cess according to the rules.

The Chief Secretary,
to the Government of Mysore

Sir,

In reply to your despatch of the 19th 1875
dated 1st July last, I have the honor to
state that Kanyang is a village which
has no bank of its own, but its wet
lands together with those of 3 other
villages are irrigated by a talagere tank.

2. In 1872 an estimate of Rs. 5187¹⁰⁰ was
prepared for the repair of this tank,
and as the wet lands of Kanyang, Gacima,
Kannari, Kaminari and Kanyangutta
Gyavacandra villages were equally
irrigated by this tank, the rights of the
land & villages contributed Rs. 64¹⁰⁰ in
labor, but as the Machalika is not forth-
coming it is impossible to say now the
proportion of labor done by the rights
of each village.

3. There is nothing in the record
to show that the mandars paid
any contribution at all. The wet
cultivating land below the tank,
in their petition on stamp paper
dated January 1873, stated that
they had completed their share

There was in reply to an order calling
upon them to either do the work
or pay their share of the contribution.
There are some minor issues
connected by this bank and the
bank's reports that no water-
craft has ever been landed on them.
There is no reason for this opinion
as far as the second shows.

The proceedings are submitted
for reference and return together
with those received with the docket
under reply.

I have the honor to be
Sincerely

Your most obedient servant

Decision.

Plaintiff complains against the irrigation of water
into his Narayana Pa. land.

Plaintiff's land is irrigated under the Sanku, the 1st
Village Narayana Pa. The Sanku was raised to Narayana
at a cost of Rs. 50, and the right of irrigation is
given to the Narayana Pa. Village, whose lands are irrigated
under the Sanku, and the Narayana Pa. Village is
authorized to raise the Sanku to Narayana Pa.

In the Narayana Pa. account of Rs. 50 an area of 100
is entered as land irrigated, and the Narayana Pa. Village

into the wet field raised to Narayana Pa. in the
under notice though it is irrigated to the water of the Narayana
Pa. Village. In 1880, the same land, Rs. 50, is a little
more than 5000, was irrigated, and the Narayana Pa. Village
on 10th January 1881, that water, Rs. 50, should be
charged, as the Narayana Pa. Village have failed to produce
evidence as to show that they were right to the Narayana Pa.
water. The plaintiff is against this order.

No additional gift was imposed on the Village.
 As it is clear from the record that the sum in question
 has always been assigned under the name of wages
 for labour, and as there is nothing in the settlement
 made by the Government that takes away that right,
 the imposition of water rate was proposed by the Government
 direct that it be permitted, and any sum already
 collected be handed to the party. It must however be under-
 stood that the order is not intended to relieve the Govern-
 ment of its share of the responsibility of contrib-
 uting to the repairs of the tank.

Pelleon complains against
the imposition of water rate
on her ^{Regentia} lands.

Pelleon's lands are
irrigated under the tank
of the En village. It is said
In 1872 the tank was repaired
by Govt at a cost of Rs 3180 when the
rights of Pelleon's village & those
of 14 other villages whose lands
are irrigated under the tank
contributed Rs 647 in labor,
though the amount contributed
by each was not equal.
